

# SBCSLY

**SBCSLY is a passionate DJ, artist, and promoter who recently returned to Poland after an extensive stay in Sweden. During his time in Scandinavia, he immersed himself in the world of electronic music and rave culture, which left a lasting imprint on his artistic journey. Despite being deeply rooted in hip-hop culture, a genre he grew up with and still feels connected to, he made the bold decision to focus his energy on electronic music and its thriving underground community.**

**Though relatively new to the scene, having started his DJing journey in 2021, SBCSLY quickly earned the trust of local artists and promoters. His sets have ranged from intimate forest raves to high-energy main stage performances, including a notable support slot for Thomas Schumacher. His growth in the scene as an organizer, host, and promoter has laid a strong foundation, and now, he's focused on building his reputation as an artist and DJ.**

**His approach to DJing is all about quality over quantity. Each set is a carefully curated journey, with a selection that goes beyond mainstream hits. He prides himself on digging deep into the underground, pulling out tracks from the farthest corners of the internet, tracks that resonate with his soul and speak to his audience. You won't find commercial anthems in his sets – just raw, authentic electronic beats that tell a story.**

**What to expect from SBCSLY's sound: Dark, rhythmic, and tension-filled, his music is driven by spine-tingling basslines and pulsating rhythms that keep you on the edge. Always experimenting, SBCSLY blends a wide range of styles while staying true to his techno roots. From minimal and dark disco to hard groove, hard trance, bouncy rhythms, and even a touch of psy-trance, his sets are a hypnotic, sensual ride. His sound is immersive, always keeping the energy flowing with a deep, underground vibe.**

**In every performance, his goal is simple: to connect with the right crowd, deliver an experience that's both personal and unique, and take listeners on a journey that stays true to his artistic vision.**
